

Par 5

501 yds

487 yds

Pro's Tip:

Gentle start but avoid the right side bunker and trees off tee.

Longer hitters should aim for left half of fairway to give a great chance to go for the green in two.

170 yds

157 yds

Par 3

Pro's Tip:

Always play to right half of green avoiding bunker and OOB left. Playing just short here is not a bad result as long as you can find the ditch.

Par 4

423yds

343 yds

Pro's Tip:

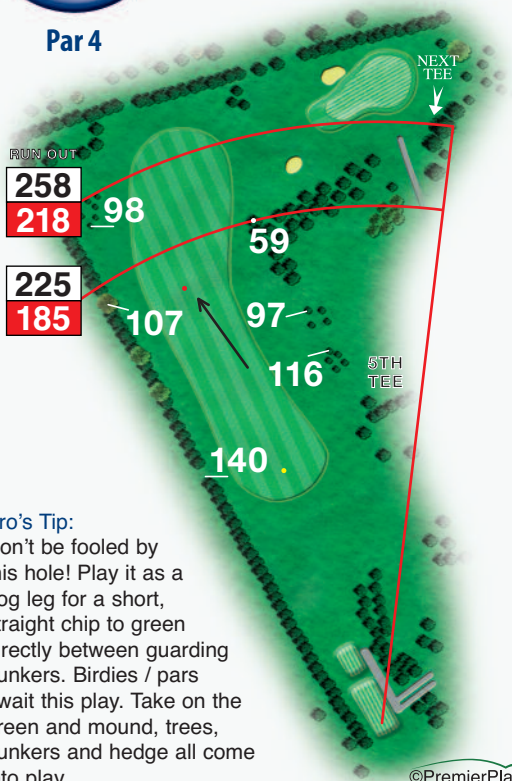

A testing par 4 requiring two well struck shots to reach the green. The line for the brave is between the marker post and the bunker.

283 yds

Par 4

©PremierPlan

Par 4

387 yds

363 yds

Pro's Tip:

Keep your drive down left half of fairway to open up angle for approach shot. Holding green can require some check spin – an alternative is to play short to left front of green, then chip and putt for your par.

Pro's Tip:

Pick your favourite club for straight hitting as ditch on left and stream on right. A drive down the left side will allow for sloping fairway. Par is always good here.

MARKER POST

132

Keep well to the left of the bunker and a well struck drive will leave a delicate shot to a sunken green. Don't be long with chip.

219 yds

137 yds

Par 3
Pro's Tip:

May be more club than you think. Hole is uphill and often into a prevailing wind that does not feel that strong at ground level.

©PremierPlan

Par 5

488 yds

465 yds

Pro's Tip:

Beware getting blocked by conifers on left from tee. Best approach to green is from the left half of the fairway.

LEFT MOUND

250

226

196

Pro's Tip:

Drive between the mounds. In summer, with run on the ball, beware of overshooting the green on approach shot - a bunker at back of the green awaits.

©PremierPlan

Par 4

366 yds

281 yds

Pro's Tip:

A drive down the left half of fairway sets up an easier approach to sloping green. Big hitters may find ditch coming into play off drive in summer.

©PremierPlan

Par 5/4

506 yds

360 yds

Pro's Tip:

A well struck tee shot is required to reach top of hill. Play approach shot to right half of fairway to avoid going over bunker on third shot.

©PremierPlan

Par 4/5

420 yds

401 yds

Pro's Tip:

A pond spans the approach to the green. Even a well struck tee shot can leave you in a dilemma – go for it or lay up? Study yardages and consider playing conditions.

Par 4

447 yds

360 yds

Pro's Tip:

Tough hole to make par. The fairway over the brow of the hill slopes to right so aim left of marker post off tee to hold fairway.

©PremierPlan

Par 3

160 yds

130 yds

Pro's Tip:

Green slopes away from you and to right. A well struck shot needed to front, left hand side of green – then you require the touch of a surgeon!

©PremierPlan

Par 4

303 yds

271 yds

167 yds

128 yds

Par 3
Pro's Tip:

McKenzie green so play 'bottom tier' or 'top tier' as determined by flag position. In windy conditions, aiming to finish in the centre of green is percentage play.

©PremierPlan

Par 5

535 yds

454 yds

©PremierPlan

Pro's Tip:

Big hitters can take on the corner to give chance of getting home in two. Mere mortals should play three straight, conservative shots. Beware of well protected green surrounded by four bunkers.
